Maybe even better than free.

This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Your wallet will be none-the-lighter! Just so we're all 100% clearhere: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. You canupload any type of file (movies, music, documents, images, zip files and more). It is also allowed to link to the download page from websites and communities. Just upload the file you want to share with your friends and we send you a download link to your file. Alternatively you can choose to share your downloadlinks on blogs, forums and social networking sites. Using file, you can circumvent those limits without paying to upgrade your team chat service. Unfortunately, we can't make that part free. You decide who you want to share your files with. Why pay storage fees for a file that you just wanted to send to a friend orcolleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Simply upload your file and share the link. Ourservice is completely free for everyone. We have no file size limit. You can give this download link to your friends by mail or instant messenger. Filestransferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Any file in any format can beuploaded and downloaded for free. File is free to use with no gotchas and no hidden fees. The cost of that data transfer is covered by your internet service or thedata plan on your phone. If only we could, we surely would! On the other hand, using file can actually save you money. There are no restrictions on the numberof times a file can be downloaded. Keep your files private, or send your download links only to friends or family. filehosting provides an easy possibility foryou to send large files to your friends. No account or credit card is required to get started. So try our free and simple filehosting service now. When you use file,you avoid storing the file you're sending in your cloud storage or mail server. You don't need any special software installed to be able to download your files.Files can be downloaded from any computer from our high speed servers.
