The sound quality is very good. I have been using an APT Holman Preamp for the last 3540 years and the phono preamp is distorting very badly even after heavy cleaning. It went back to the factory about 30 some years ago and was gone for 9 months so I decided to replace it this time. The main feature I was looking for in a preamp, beside phono input, was an external processor loop for the accessories I have, and the C2 has that option. It allows me to utilize a subsonic synthesizer for the low frequencies that dont record well on vinyl, a 16 band equalizer hello Ferris Bueler , and the greatest little device I ever found, a Burwen Dynamic Noise Filter, that cleans up hissing and scratches. The biggest drawback of vinyl is of course, damage to the media itself, but the warmth of the sound is quite evident Great looking and awesome sounding, especially after it is rebuilt with fresh state of the art Film and Electrolytic Capacitors and Power Supply Diodes that did not even exist when this PreAmp was introduced. The sound was ahead of its time when it was introduced, but will come alive with the right replacement components. It is easy to work on and well worth the effort.<http://xn---71-2dd3afh7a.xn--p1ai/f/boos-rc-50-user-manual.xml>

- **carver c-2 manual, carver c-2 manual, carver c-2 manual, carver c-2 manual, carver c-2 service manual.**

I enjoy collecting and rebuilding certain classic and slightly retro Amps. The C2 is a favorite in all respects. Please use the form below to log in, or click the signup tab to create a new account. Please let us know if you have any questions or comment on how we run HifiManuals. The schematic is a technical drawing or diagram of your system, a perfect supplement to the Service Manual. This data is collected and thus shared with Google. Got it. Imagine a sound system in your home utilizing your favorite turntable with either a moving coil of moving magnet phone cartridge being taped by your cassette deck and reel to reel. Now imaging taping from one tape deck to another with the ease of just one click. Then, when you wish to move on to new dimensions, switch to either your digital disc player, your tuner or an extra signal processor at will. All this flexibility is offered by the C2 with one overriding prime directive To reproduce your music with absolute sonic purity. This is made possible with the use of the finest quality electronic components, mounted on the highest quality, glassepoxy circuit boards. The end result is the virtual absence of distortion. The CARVER C2 preamplifier offers the discriminating audiophile with a relatively moderate budget the opportunity for uncompromised sound and handsome design. Lets take a guided tour of the C2s front panel and explore the advantages features this remarkable preamplifier can bring to your system. You can even hook up the audio output of many computers such as the Commodore 64, Apple of PC sound cards. The tape Monitor switch is normally left off unless you want to listen to a tape of check out how well its being recorded. When you wish to play a cassette or open reel tape, simply click the selector from off to Tape source 1 or 2. Ergonomically, this is a far easier approach to signal selection than the traditional Tape Monitor and Dubbing buttons often stuck off to the side of the

regular controls. <http://ahppesticide.com/userfiles/boss-rc-505-manual.xml>

A special Mode switch allows listening in mono, stereo, reversed phase stereo, left only and right only modes. In between these two signal selection buttons is a Headphone plug which allows you to enjoy the new breed of high performance individual listening devices. Unlike some preamplifiers, this is not an underpowered afterthought. The C2 lets you add headphone extensions of up to fifty feet and even pair up two sets of headphones without loss of volume or degradation of sound quality. The C2's Bass and Treble Tone Knobs control equalization circuits which allow carefully planned increases and decreases in the overall sound spectrum. They are designed to boost and cut at the outer edges of the bass and treble frequency range without major effect to the midrange areas. After the self-explanatory Balance control are four switches controlling various important functions. If you are not in need of equalization, a corresponding switch is provided which totally disengages the circuitry for flat response. An External Processor Loop switch lets you add and enjoy equalizers, expanders, special speaker EQ boxes, open ended noise reduction units or our own C9 Sonic Hologram Generator. The mute control lets you cut off sound output without changing the volume control during record changes, telephone calls or while listening to headphones only. Additional specialized circuits are accessed from the back of the C2 as well. An Infrasonic Filter circuit helps protect your speakers from power robbing, ultralow bass distortions caused by turntable resonance, warped records, acoustic feedback and other real world problems. Next to the phono inputs are a second set of sockets which allow precise control of Phono Cartridge Loading Impedances. By adding or subtracting resistance values with special plugs, your cartridge and connecting cable can be balanced to sound their best without peakiness or hollowness caused by improper loading impedance.

Two Line Gain Sockets allow a high level gain choice of 15 or 25 dB to ensure the best possible match with your power amplifiers input needs. The preamplifier measures 17.3 inches wide, 9 inches deep, 2.55 inches high. Weight approximately 6.5 pounds. Technical excellence aside, the true measure of C2 is its overall sonic accuracy; rich, musical and totally uncompromised sound delivered in a truly affordable package. Explore the promise and performance of the C2 at your Carver dealer today. Use these links to ensure a small donation to Hifishark upon your purchase! Get it delivered to your inbox. I found some places to buy copies, but i dont really want to spend more on the manual then i paid for the equipment. This receiver is in very good physical and operational condition. The only blemish is that one of the TAPE 2 outputs is missing its ground ring. This preamp is very high quality, as would be expected from Carver of this era. This unit comes with original owners manual. Unlike many auctions of ebay, this item will be shipped in a new box with new packing materials to ensure a clean and safe delivery. From the op description hes has the volume on or hasnt made his inquiry clear if the volume was off. Montage van de dakko. De aanbevolen afstand tussen de dakdragers is 70 cm.Het beladen van de dakko. Houd er rekening mee dat u het gewicht van de dak drager plus het gewicht van de dakko en het gewicht van de belading van de dakko.De rijstijl dient daarop te worden aangepast.Controleer dit zorgvuldig en bekijk na de eerste 50 km en daarna iedere volgende 500 km of de dakko er nog stevig vast zit door het bevestigingssysteem te controleren op alle vier de punten.S PA Advertencias e instrucciones Gracias por comprar un cofre portaequipajes HAPRO. Para poder disfrutar durante años de su nuevo cofre portaequipajes, siga las instrucciones de este manual de montaje y uso. Le recomendamos que guarde este documento dentro de su vehículo. Antes de ponerse en marcha con el vehículo, verifique en cuenta que tiene que sumar el peso de las barras de techo, el peso del cofre y el peso de la carga el equipaje. Esto incluye la sensibilidad a los vientos de costado, a las curvas de la carretera y al comportamiento de frenado. Debe adaptar su estilo de conducción según corresponda.El grado de esta circunstancia varía en función del tipo de coche, de la posición del cofre portaequipajes en el techo del vehículo y del tipo de baca que se este utilizando. ENG Warnings and Instructions Thank you for purchasing a HAPRO roof box. To ensure that your new roof box gives you years of pleasure, please follow the guidelines given in these assembly and user manual. We recommend that you store this document inside your vehicle. The recommended spacing of the roof bars is 70cm. Before driving, always check that the cover is closed well. Take into account that you have to add up the weight of the roof bars, the weight of the roof box, and the weight of the load. This includes sensitivity to crosswinds, bends in the road and braking behaviour.

You must adapt your driving style accordingly. Check this carefully, and check all four points again to ensure that the roof box is still mounted securely after the.The degree to which this occurs depends on the type of car, the position of the roof box on the car roof and the type of roof bars in use. FRA Avertissements et instructions Vous venez d'acquies un coffre.A n que ce nouveau coffre.Nous vous recommandons de la conserver à l'intérieur du véhicule. L' écartement préconisé est de 70 cm. Tenez compte du fait que vous devez ajouter le poids des barres de toit, le poids du coffre. Ne dépassez jamais la charge du coffre de toit. a Placez les bagages lourds audessus des deux barres au centre du coffre.Ceci inclut une sensibilité aux vents latéraux, les virages et le comportement de freinage. Vous devez adapter votre style de conduite en conséquence.Pr ocedez a des vérifications. I TA Avvertenze e Istruzioni Grazie per aver acquistato un baule da tetto HAPRO Per fare in modo che il vostro nuovo baule da tetto vi dia anni di piacere, seguite le linee guida fornite nel presente manuale utente e di montaggio. Vi consigliamo di conservare questo documento all'interno del vostro veicolo. La distanza consigliata fra le barre del tetto è di 70 cm. Prima di partire, controllare sempre che il coperchio sia chiuso bene. Bisogna considerare che si deve aggiungere il peso delle barre, il peso del box portabagagli ed il peso del carico. Questo totale non deve superare il carico massimo autorizzato del tetto. b Questo totale non potrà superare il carico massimo consentito.Cio comprende la sensibilità al vento trasversale e il comportamento in curva e in frenata. Lo stile di guida deve essere adattato di conseguenza.Controllare con maggior frequenza su strada. Aby nowy boks dachowy zapewnił Państwu zadowolenie z użytkowania przez wiele lat, prosimy przestrzegać wskazówek zawartych w niniejszej instrukcji montażu i obsługi. Zalecamy, aby przechowywać ten

dokument w pojeździe.

Przed rozpoczęciem podróży należy sprawdzić, czy pokrywa jest dobrze zamknięta. Należy pamiętać, że masa łączna to waga belek dachowych, boksu oraz ładunku. Oznacza to podatność na boczne podmuchy wiatru, zachowanie na zakretach i charakterystykę hamowania. Styl prowadzenia należy odpowiednio dostosować. Kontrole te należy przeprowadzić z należytą starannością i ponownie skontrolować wszystkie cztery punkty po przejechaniu pierwszych 50 km i każdych kolejnych 500 km, aby upewnić się, że kufer dachowy pozostaje bezpiecznie zamontowany. Poziom hałasu zależy od typu samochodu, ustawienie kufrów dachowych na jego dachu i typu zastosowanych relingów dachowych.

DEU W arnhin w eise und Gebrauchsan weisung Vielen Dank, dass Sie sich für den Kauf der Dachbox HAPRO entschieden haben. Um sicherzustellen, dass Sie sich auch noch nach Jahren an Ihrer neuen Dachbox erfreuen können, befolgen Sie bitte die in dieser Montage und Gebrauchsanweisung enthaltenen Anweisungen. Wir empfehlen, dieses Dokument im Inneren Ihres F ahrzeugs aufzubewahren. Der empfohlene Abstand der Dachträger beträgt 70 cm. Kontrollieren Sie stets v or dem Losfahren, ob der Deckel sicher geschlossen ist. Herstellerangaben siehe Betriebsanleitung des F ahrzeugs. Beachten Sie, dass das Gewicht von Dachträger, Dachbox und Ladung addiert werden muss. Diese P rodukte wirken auf die Zusammensetzung des Kunststo. Dazu gehor en unter anderem eine stärkere Seitenwindemp. Sie müssen Ihren F ahrstil dementsprechend anpassen. Überprüfen Sie diese P unkte immer sorgfältig vor jeder F ahrt, und überprüfen Sie nach den ersten 50 km und dann jeweils alle 500 km er neut, ob die Dachbox nach wie vor an allen vier Au.F uhren Sie diese Überprüfungen bei schlechter F ahrbahnbescha. Das hängt von verschiedenen F aktor en wie Ihrem F ahrzeugtyp, der P osition der Dachbox auf Ihrem F ahrzeugdach und dem verwendeten Dachgepackträger ab.

Para assegurar que a sua nova Mala de tejadilho lhe proporciona anos de prazer, cumpra as directrizes indicadas neste manual do utilizador e de montagem. Recomendamos que guarde este documento no interior do seu veículo. O espaçamento recomendado para as barras de tejadilho é de 70 cm. Antes de se ir embora, verifique. Não se esqueça de que tem de adicionar o peso das barras de tejadilho, o peso da Mala de tejadilho e o peso da carga. Entre elas, a sensibilidade a ventos laterais, as curvas da estrada e o comportamento de travagem. Deve adaptar o seu estilo de condução em conformidade. Verifique atentamente esses aspetos e volte a verificar. Em estradas com piso em más condições, deve verificar. O nível de ruído atingido depende do tipo de automóvel, da posição em que se encontra montada a caixa no tejadilho e do tipo de barras de tejadilho utilizadas. HUN Figyelmeztetéseket és utasításokat Koszonjuk, hogy HAPRO tetődobozt vásárolt. Azért, hogy sokaig használhassa a tetődobozt, kérjük, ne felejtse a jelen összeszerelési és használati útmutatóban foglaltakat. Javasoljuk, hogy mindig tartsa ezt a dokumentumot az autójában. A keresztrudak ajánlott térköze 70 cm. Elindulás előtt mindig ellenőrizze, hogy jól le van zárva a tetődoboz fedele. Vegye gyelembe, hogy az autó tetejét a keresztrudak, a tetőbox és a benne lévő rakomány súlyának összege terheli. Ne lépje túl a tetőbox maximális terheletét. A nehéz tárgyakat helyezze a tetődoboz közepénél lévő két rud fölé. Ez a tetőbox nem alkalmas állatok, vagy veszélyes termékek szállítására. Ez magában foglalja az oldalszeleket, kanyarokra és fekezési magatartásra való érzékenységet. Ennek tudatában alakítsa a vezetési stílusát. Erre nagyon ügyeljen, illetve az első 50 km után és minden megtett 500 km után ellenőrizze mind a négy pontot újra, hogy a tetődobozt továbbra is biztonságosan rögzítve legyen. Ennek a mértékét az autó típusától, az autón lévő tetődoboz pozíciójától és a tetőrácsok típusától függ.
