When you are ready to learn detailed information about these operations, read the complete Owners Manual that is included on the CDROM. To View OnLine setup.exe program from the root directory of the Brother CDROM. I To access our web site www.brother.com, click Brother Home Page. I To view all Brother Numbers, including Customer Service numbers for the USA and Canada, click Support Information. However, you can use your machine to its fullest potential by taking a few minutes to read this manual. Additionally, your machine has a Reports Key. Press Reports, 1 to print a list of basic step instructions and explanations. This will verify that your machine is properly installed. FAX4100, FAX4750e and FAX5750e have the same control panel keys. The Toner icon flashes on and off when toner is low, so you'll know to order another toner cartridge. Stops a fax, cancels an operation or exits from Menu mode. F Reports. Accesses the Reports menu so you can select reports to print Help List, Auto Dial, Fax Activity, Transmission Verification, and User Settings. A Fax Start. If your machine is set to the FAX mode, it will answer every call automatically with fax receiving tones. Telephone Handset Drum Unit Assembly With free Standard Toner Cartridge up to 3,000 pages. Handset Curled Cord Power Cord Document Support. Telephone Wire Cord. Document Tray with Extension Paper Cassette Quick Setup Guide. Software License Agreement For FAX5750e Only. Do not connect your machine to electrical outlets on the same circuit as not insulated unless the telephone line has been disconnected at the network interface. I Use caution when installing or modifying telephone lines. To prevent damage to the drum, do not

expose it to light for longer than a few minutes. Document Support. Document Tray with Extension Output Bin Extension, which holds printed pages in place. Front Output Bin Extension Manual Feed Slot. Paper Capacity of Paper Cassette. <http://www.scuderieverdina.it/scuderia/userfiles/d-link-2730b-user-manual.xml>

Fax messages can be received on only Letter, Legal and A4 size paper. If you use legal or A4, change the Paper Size setting Menu, 1, 1.. Loading Paper in Paper Cassette Press down on the paper to flatten it in all four corners, keeping the paper level below the guide. Maximum Paper Height Guide Connect one end of the telephone line cord to the jack labeled LINE on the left side of the machine AC power line and on the telephone line, or unplug the lines during a lightning storm. Do not touch the rollers at the paper exit. Your machine will work best on a dedicated line. TwoLine Phone System. When you are installing an external twoline telephone answering device TAD and a twoline telephone, your machine must be isolated on one line at both the wall jack and at the TAD. Menu Mode. You can access the Menu by pressing Menu. Page Increases life of toner cartridge. Page Sets up your machine to poll another fax machine. Changes lightness or darkness of a fax you are sending. Page Stores incoming faxes in memory for remote retrieval. Personalizes code for retrieving faxes. Page Submenu. Menu Selections. Options. Descriptions. Page. See the NC8100h Owners manual on the CDROM. Note. The factory setting option is shown in bold. Setting Date and Time. Your machine displays the date and time, and prints it on every fax you send. In the event of a power failure, you may have to reset the date and time. The telephone number you enter will be printed only on your cover pages and call back messages. See Composing Electronic Cover Page, Page 66. Most keys on the dial pad have three or four letters printed above them. The new setting will remain until you change it again. Setting the Beeper Volume. You can set the beeper to LOW, HIGH or OFF. The default setting is LOW. When the handset is replaced, the handset volume will remain until you change it again. VOLUME AMPLIFY ON TEMPORARY This setting is appropriate if some of the users are hearing impaired. You may have to reset the date and time.

FAX4750e and FAX5750e have a Memory Backup feature; after a power failure all faxes in memory will be saved for several days. Turning On Automatic Daylight Savings Time. You can set the machine to change automatically for Daylight Savings Time. Your fax machine comes set to accommodate tone multifrequency dialing service. OFF, and then press Set. The new setting will remain until you change it again. If you have Fax Storage ON for Remote Retrieval you can still print a fax in the memory when you are at your machine. See Setting Fax Storage, Page 93. Setting Up Polling Receive. Polling Receive is when you call another fax machine to receive a fax from it. See Canceling a Scheduled Job, Page 58.. Your machine can request documents from several fax units in a single operation. Afterward, a Sequential Polling Report will be printed. See Canceling a Scheduled Job, Page 58. I Before you send a fax press Resolution to select the resolution for the document you're sending. See Fax Resolution, Page 65. If you send faxes from a computer on the same phone line and your Brother machine intercepts them, set Easy Receive to OFF. Manual and Automatic Fax Redial. Then, as soon as the phone line is free, the machine will start dialing and sending the fax. If memory becomes full, the machine will send the document in real time even if REAL TIME TX is set to OFF. Any waiting jobs appear on the display. If no jobs are waiting, the LCD shows NO JOB WAITING. Your cover page includes the name stored in the One Touch or Speed Dial memory. Make sure the Station ID is set up. See Page 44. This feature does not work without the Station ID. You can set the fax to send a cover page with a particular document. The number of documents you can scan into memory varies with the data they contain. Delayed Batch Transmission. If you must use your machine before the polled transmit occurs, you must cancel this job. I If you want to erase the number, press Clear when the cursor is to the left of the digits.

<http://schlammatlas.de/en/node/19094>

You can print a list of all One Touch and Speed Dial numbers. See Printing Reports, Page

101. Manual Dialing If you are sending a fax, press Fax Start after pressing the Speed Dial number. If you picked up the handset, press Fax Start when the receiving fax machine answers with fax tones. One Touch Dialing. Example Speed Dial number. Press Broadcast. Enter the next fax number. Example Manual dialing, using the dial pad Your machine will read the document into memory and then start sending faxes to all the numbers you entered. Redial. You can change or cancel the Distinctive Ring pattern at any time. You can switch it off temporarily and later turn it back on. When you get a new fax number, make sure you reset this setting. Registering the Distinctive Ring Pattern. Printing Caller ID List Programming a Fax Forwarding Number Do not include the area code if it is the same as that of your machine. If you have set FAX STORAGE to ON, your faxes will be received into memory, so you can retrieve them remotely. With BACKUP PRINT set to ON, your machine automatically prints faxes as they are received into memory. Using Remote Retrieval Access Code You can set FAX STORAGE to ON or OFF. Enter the number of a remote fax machine to receive stored fax messages. See Page 96. If you hear one long beep, you can erase fax messages from the memory. The remote fax machine prints your fax messages. Changing Fax Forwarding Number. You can change the default setting of your fax forwarding number from a remote fax machine. You can set the machine to print activity reports at specific intervals EVERY 50 FAXES, 6, 12, 24 hours, 2 or 7 days. Don't forget to set up the Fax Activity Report and Transmission Verification Report as explained on page 101. Note. To gain extra memory, you can turn off Fax Storage see page 93. OR Print fax messages in memory see page 56. Temporary Copy Settings. AUTO sets the machine to calculate the ratio that fits the size of your paper.

<https://www.massimocarpegna.com/images/configurar-wifi-manual-iphone.pdf>

Use the Options key to temporarily change the copy mode resolution, contrast and special copy options for the next fax only. See the explanations below the table. Press Options Menu Selections Options Factory Setting 01 STACK OFF PLAIN Special Layout Options. You can save paper by copying either two or four pages onto one page. For the best print quality, select the type of media that you are using. THIN 16lb 18.4lb PLAIN 18.7lb 25.3lb THICK 25.6lb 32lb For thin paper or transparency For ordinary plain paper For heavy weight paper or rough paper. Press or save your selection. Press Menu, and 3. Note. Paper Type. You can use the following types of paper for copying. For the best print quality, select the type of media that you are most often. For the latest information from Brother, visit. Installing the Optional Memory Board. Caution DO NOT touch the surface of the main board within 15 minutes after turning off the power. Backup Battery Backup Battery Do not touch the surface of the board. I Make sure the memory board is securely seated on the main controller board. Network LAN Board Option for FAX4750e. The network LAN board option is not available for FAX4100. See the following three types of paper jams. Print a few copies of the test page until the pages print clearly. Either your machines you receive. Your machines scanner may be dirty or the receiving partys print head may be dirty. Clean your scanner see page 1318, and then make a copy to check if the problem was caused by your machine. When your machine answers, hang up. The machine prints Reset the machine. How can I load envelopes The machine does not load transparencies. Paper Handling Difficulties Cont. What paper can I use. You can use plain paper, envelopes, transparencies and labels for laser machines. Check the machines environment. Conditions such as humidity and high temperatures may cause this print defect to occur. Also, do not use heatsensitive paper because it will cause this problem.

<http://master-of-wine.com/images/configuration-manager-2007-install-client-manually.pdf>

After cleaning, if the printed pages are still black and the LCD shows CHANGE DRUM SOON, replace the drum unit with a new one. Make sure that the toner cartridge is not empty. Adjust the print conditions by setting the Print Density setting, page 54. Make sure you use paper that meets the specifications. Caution. Remove the drum unit and toner cartridge assembly. Leave the toner cartridge installed in the drum unit. Bottom Layer. If you are returning the machine to Brother as part

of the Exchange Service, pack only the machine. Caution If toner scatters and your hands or clothes get dirty, immediately wipe or wash it off with cold water. Corona Wire Tab. Home Position If the tab is not at the Home position, printed pages may have vertical stripes. Replacing the Toner Cartridge. The machine can print up to 6,000 pages using a high yield toner cartridge. Place the drum unit on a drop cloth or large piece of disposable paper to avoid spilling and scattering the toner. Using another brand of toner cartridge may void your machines warranty. Warranty coverage does not apply to problems caused by the use of 3rd party Toner, 3rd party Toner cartridge or 3rd party Drum unit. You should clean the machine when you replace the drum unit. See Page 1319. Caution. When removing the drum unit, handle it carefully because it contains toner. Cartridge, Page 1320. If possible, they will notify you in advance. But if advanced notice is not practical, you will be notified as soon as possible. Changes or modifications not expressly approved by Brother Industries, Ltd. Internal laser radiation Max. Radiation Power Wave Length Laser Class 5 mW 760 810 nm Class IIb Accordance with 21 CFR Part 1040.10.
