The actual Open Box product may differ in packaging and included accessories, but has been tested to ensure basic functionality. While not the best speakers on the market, they are certainly the best at this price range. Although this 2.1 setup is still pretty good. You simply cant get the clarity of sound, deep powerful bass the guys below probably have an inferior sound card or cant find the bass volume, undistorted volume and build quality from other brands like logitech. These beat out my logitech 5.1 system hands down. Ive never had a complaint. These speakers sound incredible. Why do you think Creative has kept this design for so long They work well. The speaker system comes with a large downfiring ported subwoofer with an adjustable bass level. The audio spectrum of the satellites have been fully enhanced by incorporating Creatives Dual Slot Enclosure DSE, a design feature that produces louder midbass even in tight enclosures. In addition, with Creatives Image Focusing Plate IFP design, which improves sonic directivity to listening areas, you get more focused music that is louder, and with increased midbass, while retaining tonal

accuracy. Now you can enjoy all the details in the audio from your desktop and many other audio devices.
